Lucile Vacquie

FRONT END ENGINEER

Hi! I'm a front end engineer who loves building fun and accessible experiences using the latest and greatest technologies!

CORE TECHNOLOGIES

- **React, TypeScript & CSS libraries**: Expert in building modern, scalable applications with React and TypeScript, and designing responsive UIs with Tailwind CSS.
- **Next.js, Remix & Vite**: Experienced in using Next.js and Remix for high-performance, server-side rendered applications, and Vite for a fast development workflow.
- **API Integration**: Proficient in integrating third-party APIs, including implementing dynamic mapping solutions using GraphQL.

PROFESSIONAL EXPERIENCES

Mid Level Front End Engineer

CODE COMPUTERLOVE | MANCHESTER   October 2022 – Present

- **DatoCMS Migration**: Migration from Contentful to DatoCMS, which involved writing advanced GraphQL queries and data migration process.
- **Accessibility Champions**: Dedicated to building inclusive web experiences that adhere to WCAG standards, ensuring usability for all users.
- Streamlined the design-to-development handoff by using **Figma** to sync and apply design tokens.
- Translate design concepts into clean, maintainable, and efficient code.
- Implement and maintain front-end components, ensuring seamless integration with back-end services.
- Collaborate with cross-functional teams, including designers, back-end developers, and product managers, to bring collaborative projects to life.
